

Website homepage refresh ideas

Frances Sibbet, Webmaster

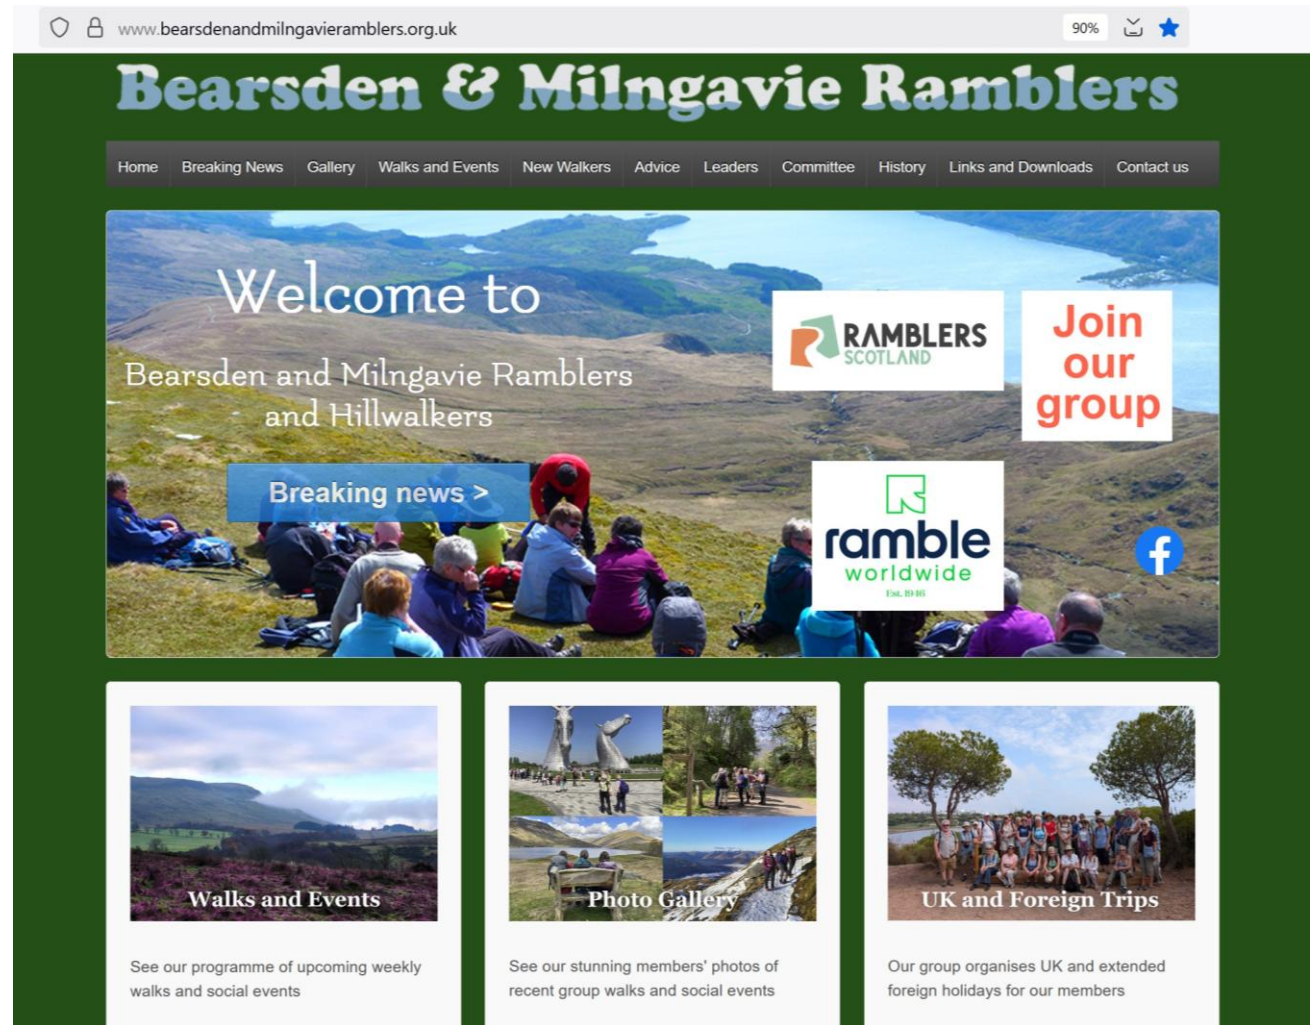

December 2025

Our homepage has served us well for 12 years

The friendly images capture our group enjoying themselves and the fabulous scenery on our walks

Our members can easily access Breaking News and our Walks calendar

It is easy for new walkers to find our walks and join our group

But improvements can be made ...

It looks poor on a mobile phone and does not resize well

The logos and buttons are odd sizes

We are not making full use of our range of stunning walks photos

What we want to achieve:

- A one-off refresh JUST to the homepage
- Keep the website menus the same
- Keep it easy to find Walks and Breaking News etc

But also:

- ✓ Attract new walkers and members
- ✓ Show photos of a variety of walks for all comers
- ✓ Freshen it up and make it more dynamic

How we will achieve it:

- A carousel of 3 large photos that scroll slowly
- The photos are bold and uncluttered
- Quick links for Our Walks, Breaking News and Join Us
- 3 boxes below for Walks, Photos and Holidays
- The logos are resized and aligned
- The website will look good on a computer, tablet or phone

Bearsden & Milngavie Ramblers
